

PSETs Landing Page*

Anish Krishna Lakkapragada

This is the documentation for using my PSET PDFs responsibly for educational resource. I post these PSETs (1) as a learning resource for friends at other universities and fellow Yalies and (2) for quick reference for me. These PSETs are not to be used irresponsibly; only look at the solution after giving each problem an honest attempt. **IF YOU USE THESE PSETS TO CHEAT, YOU ARE NOT ONLY STUPID BUT YOU ARE CHEATING YOURSELF OUT OF THE ABILITY TO FALL IN LOVE WITH MATH.** Furthermore, I am not smarter than you and my solutions did not always get a perfect score.

The general format for accessing the (one-indexed) `N`th assigned PSET PDF of a class with `CODE` is:

`https://anish.lakkapragada.com/notes/TYPE-CODE/psets/N.pdf`

where `TYPE` is `stats` or `math`. Similarly, to access my solution for this PSET you can go to:

`https://anish.lakkapragada.com/notes/TYPE-CODE/sols/N.pdf`

These PSETs and associated solution PDFs are synchronized every night with my computer files via a Cronjob shell script. If you want to contribute any corrections, please email anish.lakkapragada@yale.edu.

*Note that PDF here is referring to Portable Document Format, not to be confused with the veritable Probability Density Function.
